# VINYL Moulding

**T-Molding**  
Size: 2400×43×07mm, 20pcs/ctn;  
T-moldings are commonly used in doorways to join two flooring with same level;

**Flush stair nose**  
Size: 2400×72×25mm, 2400×115×25mm  
Flush stair nose can join your SPC/WPC flooring directly with groove system;

**Underlayment**  
Size: 16.9m×1.1m×1.5mm  
Underlayment (EVA/IXPE) is placed underneath the flooring to provide comfort underfoot and to provide insulation against sound, moisture and heat.

**Reducer**  
Size: 2400×43×10mm, 20pcs/ctn;  
Reducers are used to transit from SPC/WPC flooring to floors of different height;

**Quarter round**  
Size: 2400×28×16mm, 25pcs/carton; Quarter rounds are used to conceal the required expansion space between wall and flooring to perform a good finished looking

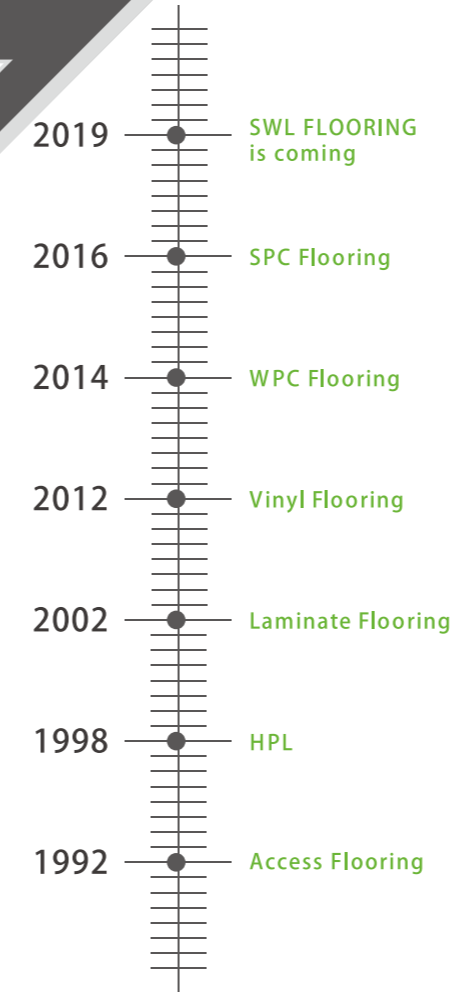

**Stair nose**  
Size: 2400×54×18mm, 10pcs/ctn;  
The overlap stair nose gives your stair steps a beautiful finishing;

**End molding**  
Size: 2400×35×10mm, 20pcs/ctn;  
End caps are used to transit from SPC/WPC flooring to carpet or ceramics;

**Baseboard**  
Size: 2400×90×15mm  
Baseboards are used to cover the joint between the wall and the flooring surface;

Our group business has started from access floor since 1992. Access floor is widely used in commercial office buildings, data centers&libraries. It is very important flooring products in commercial area.

1998, we started to produce HPL(High Pressure Laminate)which is applied to many areas, such as interior decoration, furniture and cabinets, etc...It brings beauty to people's interior area.

2002, laminate flooring became one of our main products. It is easy to be installed without glue and with various natural decor and cheaper than solid wood floor. It is so fast to be popular over all the world.

2012, vinyl flooring became more and more popular. It is 100% waterproof, resilient&0 formaldehyde release. It is used for many places which laminate can't be used, such as kitchen and washroom. Public places are also applicable. Singapore branch was opened.

2014, ZETAFLOR brought the WPC floor to USA market successfully. The WPC core makes the floor much thicker than vinyl floor, keeps the advantage of vinyl floor and meanwhile much easier for installation. India and Vietnam office was opened.

2016, we also produced SPC floor(rigid core LVT). It is a new type of PVC floor. But it has rigid PVC core with excellent quality of size stability. It is stronger and cheaper than vinyl flooring. USA office was oppned.

2019, ZETAFLOR start to produce the SWL ( Super Wood - Laminate ) flooring , it is with the advantage of vinyl floor & laminate floor . It is bound to become a new fashion trend.
